

## Single-use Caging

- Compatible with Optimice/Ergomice Racks
- Eliminate Cage-wash Labor
- Reduce Exposure to Biohazards and/or Cytotoxins by Eliminating Washing Step
- Decay Radioactive Cages Without Impacting Your Inventory
- Respond Quickly to an Infrastructure Crisis
- Ships Sterilized and Ready to Use
- Recyclable RPET Plastic
- Water Bottle and Water Bag Option

The Animal Care Systems single-use caging is compatible with our Optimice and Ergomice mouse IVC cage systems, which are based on our patented direct-exhaust ventilation technology free from motors, noise, and vibration. The cages arrive sterilized with or without bedding.

Our single-use caging streamlines your throughput processes, improves your occupational safety, and provides the tools for optimal crisis management.
